

## **Tim Stockholm (ETC)**

### **Horizon**

For this session I will present our latest solution for lighting a Cyclorama with CYC lights hanged, so we can see them working.

### **Led no wand in the near future (Engels)**

LED has a great influence on us as a manufacturer and it will for sure not be less in the future. As a Control, Dimming and Network manufacturer, as well as a fixture manufacturer, we have many challenges in each of these product groups, driven by the great possibilities and problems of LED's. What impact does this have on our product portfolio now and in the near future.
